For a Call-In System -

- Philips 9850 Call-in System
- Start Stop Universal Transcription System with 3 pedal USB foot controller
- Spectra PC USB Headset
- 1 year warranty and Free Tech Support

Simply pick up the phone and dictate into the Philips Digital Telephone Desktop 9850. It can be accessed and operated using virtually any commercially-available touchtone telephone, allowing your transcriptionist to transcribe urgent documents immediately.

The recordings can be automatically downloaded via USB to your transcriptionist's computer, an FTP server or an e-mail account. This allows for central file storage which increases security, ensuring that no files are lost, damaged or accessed by unauthorized persons.

Add our Start Stop Universal Transcription System, and Spectra USB Headset and this package will be your complete solution. Start Stop will allow your transcriptionist to easily playback your dictation files under foot pedal control, while they types in their favorite word processor. A built-in Job Manager will allow them to keep track of all the dictations and mark them as done when they are complete. Once they're finished, they simply email the files right back to you, and that's it! The Spectra PC USB is the ultimate headset allowing for unbelievable sound quality for your transcriptionist. The headset utilizes your USB port and is connected directly into the PCs sound card, resulting in heightened sound quality.
